The decision by the United States Supreme Court in Dobbs vs. Jackson Women's Health Organisation overturns Roe v. Wade, thereby dismantling the US constitutional right to abortion. The decision will have a profound and devastating impact.

As local and global women's rights, human rights and sexual and reproductive health and rights organisations working in Europe, we express our profound solidarity with the millions of people in the United States whose right to essential reproductive health care has been taken away by this decision and with all of those who have sought to protect and uphold this right.
