

EU LGBTIQ Equality Strategy – Second year implementation evaluation

The first ever EU LGBTIQ Equality Strategy, adopted in November 2020, is a major step in the EU's overall commitment and detailed efforts to ensure the fundamental rights of LGBTIQ people and fight discrimination. Many people welcomed the strategy, including ILGA-Europe, who noted in their press release that it marks a 'qualitative shift from the European Commission towards playing its full role to defend and protect LGBTI rights in times of real backlash.

Half-way through, the evaluation of LGBTI organisations is positive, but also pointing clearly to where more is needed to ensure the implementation of the strategy in all areas of EU competence and to fully live up to the commitments the EC proudly adopted with the strategy.

With this briefing, ILGA-Europe wants to highlight five key aspects of our evaluation of the first two years of implementation and set out recommendations to ensure strong implementation of the full strategy by 2024.
