

Funding for LGBTI Activism in Europe and Central Asia

[Report, Funding](#)

This report provides a compelling challenge to assumptions about the funding landscape in Europe and Central Asia, with new data and recommendations for resourcing LGBTI movements at the forefront of progress and the frontlines of resistance.

Comparing the Priorities of LGBTI Organisations and Funders

In October 2018, Global Philanthropy Project and ILGA-Europe launched a new report comparing the key findings from ILGA Europe's 2018 [Funding for LGBTI Activism in Europe and Central Asia: Priorities and Access to Resources](#) report with a deeper-dive analysis of European and Central Asian grantmaking data from the 2015-2016 Global Resources Report: [Philanthropic and Government Support for Lesbian, Gay, Bisexual, Transgender, and Intersex Communities](#).

The report is a first-of-its-kind gap analysis made from two sets of complementary data providing clear pathways and opportunities for new grantmakers and additional resources to support this large and complex region. This research was presented and analyzed during the October 2018 ILGA-Europe Donor Pre-Conference in Brussels, Belgium.
