Intersections: The LGBTI II Survey – Lesbians Analysis

This is the first in our *Intersections* series, which will be released over the coming months, taking a deeper look at the FRA 2019 LGBTI Survey II data and zooming in on specific groups within the LGBTI community. This report, developed in collaboration with EL*C, focuses on lesbians, and looks into the experiences of lesbians with disabilities, lesbians from ethnic minorities, trans lesbians, intersex lesbians, and more.

Report, Inclusion and Equality, Intersectionality, Lesbian

Disaggregated data, which can look deeply into the lived experiences of marginalised people, is a key demand of LGBTI and other human rights groups. With this in mind, over the last year ILGA-Europe have been partnering with a variety of NGOs in the region to analyse the FRA 2019 LGBTI Survey II data and pull out experiences of those experiencing intersectional marginalisation. This work is based on analysis co-commissioned by ILGA-Europe and TGEU.

Over the coming months, watch this space for in-depth briefings on youth, intersex people, religious and ethnic minorities, older LGBTI people, trans people, and others.

This, our briefing on Lesbians was carried out alongside the EuroCentralAsian Lesbian Community EL*C.
