Intersections: The LGBTI II Survey – Youth Analysis

In the second of our series of *Intersections* reports, deep-diving into the data from the European Fundamental Rights Agency (FRA) 2019 LGBTI Survey II, we have collaborated with IGLYO, to further understand the challenges faced by young LGBTI people in Europe today.

Report, Inclusion and Equality, Ageing, Intersectionality, Youth

Disaggregated data, which can look deeply into the lived experiences of marginalised people, is a key demand of LGBTI and other human rights groups. With this in mind, over the last year ILGA-Europe have been partnering with a variety of NGOs in the region to analyse the FRA 2019 LGBTI Survey II data and pull out experiences of those experiencing intersectional marginalisation. This work is based on analysis co-commissioned by ILGA-Europe and TGEU.

This, our briefing on LGBTI Youth, in which we created sub-populations of respondents aged 15-24, 15-17 and 18-24, and compared them with all respondents to the survey, was carried out alongside the International Lesbian, Gay, Bisexual, Transgender, Queer & Intersex Youth and Student Organisation (IGLYO). In coming months, watch this space for further in-depth briefings on intersex people, religious and ethnic minorities, older LGBTI people, trans people, and others.
