

Rainbow Europe Map and Index 2010

[Report, Rainbow Map and Index](#)

The map reflects European countries' legislation which protects the human rights of and ensures equality for LGB people as well as laws and practices which discriminate against and violates the human rights of LGB people.

[Rainbow Map 2010Download](#)

[Rainbow Index 2010Download](#)

The rating places a country on a scale between 10 (maximal positive score) and -4 (minimal negative score) and is an average of possible positive and negative points.

Positive points are awarded to a country which has

- legislation protecting from discrimination on the grounds of sexual orientation,
- recognising same-sex partnership,
- parenting rights of same-sex partners,
- recognising homophobia in hate speech/crime legislation.

The negative points are awarded to the countries which

- have law banning same-sex sexual acts
- have unequal age of consent
- violated the rights of LGB people to peaceful assembly and freedom of association.

The Map and Index do not reflect the situation for trans and intersex people in Europe. ILGA-Europe is working with Transgender Europe on identifying the categories and data collection which will enable to have such an overview. We expect to produce such map and index on trans and intersex issue in 2011.
