# Treasurer’s report 2021

Report, ILGA-Europe

It goes without saying, that even without the perturbations of COVID-19, both financial and organisational, the year was a period of complex work to secure diverse funding required to cover the work carried out throughout the region. With several grants coming to an end both in 2020 and 2021, including some being the sole sources of funding for important elements of ILGA-Europe’s workplan, extreme efforts were put in since the beginning of the pandemic to mobilise sufficient funding for the growing and diversifying needs of the LGBTI movement in Europe and Central Asia.
